SEMPRA ENERGY REPORTS HIGHER FIRST-QUARTER 2014 EARNINGS

- **Company Reaffirms 2014 Earnings-per-Share Guidance of \$4.25 to \$4.55**
- **Cameron LNG Export Project Completes Federal Environmental Review**

SAN DIEGO, May 2, 2014 – Sempra Energy (NYSE: SRE) today reported first-quarter 2014 earnings of \$247 million, or \$0.99 per diluted share, compared with first-quarter 2013 earnings of \$178 million, or \$0.72 per diluted share.

Excluding a \$9 million after-tax charge related to the closure of the San Onofre Nuclear Generating Station (SONGS), Sempra Energy's adjusted earnings were \$256 million, or \$1.03 per diluted share, in the first quarter 2014.

"We are seeing year-over-year earnings growth consistent with our expectations," said Debra L. Reed, chairman and CEO of Sempra Energy. "We are on track to meet our 2014 earnings guidance. Our Cameron LNG liquefaction-export project continues to make strong progress toward the start of construction later this year and we have several large projects in Mexico and Peru coming online in the second half of 2014."

Earlier this week, Cameron LNG received notice that it had completed the environmental review process with the Federal Energy Regulatory Commission. Also, in March, Cameron LNG awarded a construction contract to a joint venture between CB&I and Chiyoda International Corp. Construction on the project is expected to begin later this year, with commercial operations slated to start in 2018.

CALIFORNIA UTILITIES

Southern California Gas Co.

Earnings for Southern California Gas Co. (SoCalGas) increased to \$78 million in the first quarter 2014 from \$46 million in last year's first quarter, due primarily to higher California Public Utilities Commission (CPUC) base operating margin.

The CPUC General Rate Case decision was delayed until the second quarter last year, so neither SoCalGas nor San Diego Gas & Electric (SDG&E) recorded revenue from that decision in the first quarter 2013.

San Diego Gas & Electric

First-quarter earnings for SDG&E were \$99 million in 2014, compared with \$91 million in 2013, due to improved CPUC base operating margin and the delay in the General Rate Case decision, offset by the \$9 million SONGS charge.

On March 27, SDG&E and Southern California Edison announced that they reached a settlement agreement with key parties on the closure of SONGS. If approved by the CPUC, the agreement resolves all outstanding cost issues related to the plant closure and allows for recovery of replacement power costs, operating and maintenance expenses, and the companies' non-steam generator replacement investment.

SEMPRA INTERNATIONAL

Sempra South American Utilities

Sempra South American Utilities had earnings of \$35 million in the first quarter 2014, compared with \$37 million in the first quarter 2013.

Sempra Mexico

Sempra Mexico's earnings increased to \$42 million in the first quarter 2014 from \$31 million in last year's first quarter, due primarily to regulatory earnings for pipeline projects under construction and lower income-tax expense.

On April 21, Sempra Energy's Mexican subsidiary IEnova announced that it has finalized an agreement to sell InterGen 50 percent of the 155-megawatt Energía Sierra Juárez wind-generation project. The project, which has a 20-year power-purchase agreement with SDG&E, is expected to begin commercial operations in 2015.

SEMPRA U.S. GAS & POWER

Sempra Renewables

Sempra Renewables had first-quarter 2014 earnings of \$28 million, compared with \$4 million in the first quarter 2013, due primarily to the sale of a 50-percent equity interest in the Copper Mountain Solar 3 project.

Sempra Natural Gas

Earnings for Sempra Natural Gas were \$9 million in the first quarter 2014, compared with \$53 million in the first quarter 2013. In last year's first quarter, Sempra Natural Gas recorded a \$44 million gain related to the sale of half of the Mesquite Power natural gas-fired power plant.

NON-GAAP FINANCIAL MEASURES

Adjusted first-quarter 2014 earnings and earnings per share are non-GAAP financial measures. Additional information regarding these non-GAAP financial measures is in the appendix on Table A of the first-quarter financial tables.

INTERNET BROADCAST

Sempra Energy will broadcast a live discussion of its earnings results over the Internet today at 1 p.m. EDT with senior management of the company. Access is available by logging onto the website at www.sempra.com. For those unable to log onto the live webcast, the teleconference will be available on replay a few hours after its conclusion by dialing (888) 203-1112 and entering passcode 2722529.

Sempra Energy, based in San Diego, is a Fortune 500 energy services holding company with 2013 revenues of more than \$10.5 billion. The Sempra Energy companies' 17,000 employees serve more than 31 million consumers worldwide.

RECONCILIATION OF SEMPRA ENERGY GAAP EARNINGS TO SEMPRA ENERGY ADJUSTED EARNINGS EXCLUDING 2014 ADJUSTMENT TO LOSS FROM 2013 PLANT CLOSURE (Unaudited)

In the first quarter of 2014, Sempra Energy Adjusted Earnings and Adjusted Diluted Earnings Per Common Share exclude a \$9 million charge (\$0.04 per diluted share) to adjust the loss from plant closure (in addition to the amount recorded in the second quarter of 2013) associated with the investment in the San Onofre Nuclear Generating Station (SONGS) based upon a proposed settlement agreement filed with the California Public Utilities Commission (CPUC) in April 2014. These are non-GAAP financial measures (GAAP represents accounting principles generally accepted in the United States of America). Because of the significance and nature of the excluded charge, management believes that these non-GAAP financial measures provide a more meaningful comparison of the performance of Sempra Energy's business operations from 2014 to 2013 and to future periods, and also as a base for projection of future compounded annual growth rate. Non-GAAP financial measures are supplementary information that should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP. The table below reconciles for historical periods these non-GAAP financial measures to Sempra Energy Earnings and Diluted Earnings Per Common Share, which we consider to be the most directly comparable financial measures calculated in accordance with GAAP.

San Diego Gas & Electric Company (SDG&E)

RECONCILIATION OF SDG&E GAAP EARNINGS TO ADJUSTED EARNINGS EXCLUDING 2014 ADJUSTMENT TO LOSS FROM 2013 PLANT CLOSURE (Unaudited)

SDG&E Adjusted Earnings excluding a \$9 million charge in the first quarter of 2014 to adjust the loss from plant closure (in addition to the amount recorded in the second quarter of 2013) associated with SDG&E's investment in SONGS based upon a proposed settlement agreement filed with the CPUC in April 2014 is a non-GAAP financial measure. Because of the significance and nature of this item, management believes that this non-GAAP financial measure provides a more meaningful comparison of the performance of SDG&E's business operations from 2014 to 2013 and to future periods. Non-GAAP financial measures are supplementary information that should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP. The table below reconciles for historical periods this non-GAAP financial measure to SDG&E Earnings, which we consider to be the most directly comparable financial measure calculated in accordance with GAAP.
